Re: Docket No.02-278

To whom it may concern

In Indiana we have experienced the benefits of our No-Call law. It has markedly improved our quality of life, stopped a time wasting distraction, given **us** more time for ourselves, and has made dinner time more enjoyable. In addition, it has not wasted the time of telephone marketers because we make a policy of not purchasing from such calls. We will be very, very disappointed and annoyed if our No-Call law is superceded by FCC action.
